Springer. Paperback. Book Condition: New. Paperback. 405 pages. Dimensions: 10.7in. x 8.2in. x 1.1in. The International Life Sciences Institute (ILSI) was established to stimulate and support scientific research and educational programs in nutrition, toxicology, and food safety; and to encourage cooperation in these programs among scientists from universities, industry, and government in order to facilitate the resolution of health and safety issues. The officers and trustees of ILSI believe that questions regarding health and safety are best resolved when government and industry rely on scientific investigations, analyses, and reviews by independent experts. This process is furthered by the examination and discussion of issues on an international basis. ILSI is pleased to sponsor this set of monographs on the pathology of laboratory animals. This project collectively brings together the most comprehensive information on non-neoplastic and neoplastic lesions that occur in commonly used laboratory animals. The international composition of the authors, editors, and editorial board who have contributed to these monographs strengthens our expectations that understanding and cooperation will be strengthened worldwide through this series. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.
