Summary: What better way to teach children about nature than to help them plant a garden? With these Lift-the-Flap Nature Books, kids can also share the experience with two likable little creatures. Likewise, Rosie -- a cute gray bunny with pink ears and nose -- wants an unlimited supply of her favorite tuberous vegetable, so she prepares her own patch of ground for growing radishes. Ladybird explains how plants grow while Worm tells her what's happening underground as flaps raise to reveal gardening secrets. Both books, written in simple scientific terms, help kids learn how seeds sprout from seedlings to full-grown plants. In addition to these charming tales, each Lift-the-Flap Nature Book comes with its own seeds tucked inside the front flap. After reading about Sam's and Rosie's adventures, kids will be able to remove the deftly packaged kernels and get started on their own gardens.
