RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 78 pages. Dimensions: 9.7in. x 7.4in. x 0.2in. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1887 edition. Excerpt: . . . clear 3 red liquid be evaporated to a small bulk, little dark red, or nearly black, crystals separate, and these when dried exhibit a fine greenish lustre resembling that of the wing-cases of some beetles. The empirical formula of the compound is KMnO_4 , and its name potassium permanganate. 4 The body thus appears to differ from the manganate in but one particular, viz. , in containing an atom less of potassium. We shall presently find, however, the theory requires the doubled 1 The production of the green manganate serves as an excellent test for manganese. A little sodium carbonate is fused with the suspected body, and a crystal of nitre added when the green colour is developed. 1 The addition of a little diluted sulphuric acid hastens the change. The solution cannot be filtered through paper, as the latter decomposes the red compound. Asbestos is the best filtering medium if any need be employed. 1 This is the essential constituent of Condys disinfectant liquid, which is prepared on a large scale by a method identical in principle with that followed above. Potassium Manganate and Permanganate. 153 formula $\text{K}_2\text{Mn}_2\text{O}_8$ and the decomposition of the manganate on boiling with water then is: $3(\text{K}_2\text{MnO}_4) + 2\text{H}_2\text{O} \rightarrow 2\text{K}_2\text{Mn}_2\text{O}_8 + \text{MnO}_2 + 4\text{KOH}$. The acid $\text{H}_2\text{Mn}_2\text{O}_7$ and its anhydride Mn_2O_7 have been obtained. The chief reason for doubling the empirical formula of potassium permanganate is that, if written KMnO_4 , we should be obliged to assume that in this particular compound manganese acts...
