Understanding Project Finance is critical in the current context as India gears up for USD 1 trillion investment in Infrastructure in the next five year plan, around 30 per cent of which is expected to be financed by the private sector. Commercial Banks presently contribute 20% of total infrastructure investment and the exposure of commercial banks to this sector is increasing. Multifaceted risks are involved in bank-funding of infrastructure. Apart from asset liability mismatches leading to liquidity and interest rate risks, banks face regulatory and political uncertainty associated with these projects.
