BRAND NEW, The Insects of Ireland: An Illustrated Guide to Ireland's Common Insect Groups, Stephen McCormack, Eugenie Regan, Chris Shields, There are over 1,000 species of insects in Ireland. Although vitally important in our environment, most are very small and escape notice. This first guide written specifically on Ireland's insects concentrates on the most charismatic, easily-identified Irish insects: butterflies, bumblebees, dragonflies, ladybirds, grasshoppers and shieldbugs. As well as focussing on easy and accurate identification the guide covers distribution, habitats, seasons and conservation. This is specifically for the Irish reader, a scientifically accurate and definitive identification guide to the selected insect groups.
