IDENTIFIABILITY OF STATE SPACE MODELS

Book Condition: New. Publisher/Verlag: Springer, Berlin | With Applications to Transformation Systems | It is the objective of Science to formalize the relationships between observed quantities. The motivations of such a modelling procedure are varied, but can roughly be collected around two poles. If one is concerned with process control, one wants to find a model which will be able to predict the process behavior, taking into account the applied inputs. The model will then be evaluated on its ability...
