The Messenger of Mathematics Volume 22

By William Allen Whitworth

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1893 Excerpt: .on writing in the equation for b the values found for 6, g and g 3 having regard to the equation for a, it will be found to be satisfied. These verifications are sufficient to ensure the accuracy of the analysis, the possibility of the process being known independently. When the values of b, gi 9 are substituted in (iv), it becomes y+ 6ay + (3a+,) y-46a8+ ags+ 27g8 and now equation (i) may be replaced by equations (iii) and (iv), and, regarding a as a known quantity, depends for solution on these two cubics. The process by which (iv) has been derived from (ii) Bhews that if - = 9P(3-0), then y = P(-0) + P(u0 + fw) + P(u + a,)-2a, and that therefore, if in (iv) y be written for y + 2a, the resulting equation will be...
